There are certain uses, which, due to the nature of their impacts on surrounding land uses and public facilities, require a case-by-case review and analysis. These are identified as "Conditional Uses." The purpose of a conditional use permit is to provide standards and procedures under which a conditional use may be permitted, enlarged or altered if the site is appropriate and if other appropriate conditions of approval can be met. An application for a new conditional use permit is processed as a Type III procedure (DDC 4.1.010). Modifications to approved or existing conditional uses shall be processed in accordance with DDC Chapter 4.6 – Modifications. A pre-application conference is required before a conditional use permit application is submitted.
